

DR Congo

After more than two years of political un-rest DR Congo has stabilized under new leadership, and the economy is recovering slowly, making life for Georgette and the orphans easier and more predictable.

New School Year Starting!

Because of people like you, 54 students who would have been on the streets of Kinshasa are entering another year of school – 16 primary, 29 secondary, and 9 University students!

Kitchen going up!
A German group has raised money for Georgette to build a kitchen and home for the young boys.

Driver Training

The three students in driver/mechanic school are doing well and expect to graduate in October.

These are young men who did not finish secondary school, and thus driver training is their best hope for a steady income.

We're looking for more skills to round out the Congo's Children committee. Social Media, fundraising, other skills welcome! Contact us at congoschildren@gmail.com

University

Nine students are in University this year and only two of them are without sponsorships at this point.

University classes were suspended for some time due to a strike by the professors, so exams only just finished for last year.

Thank you for your consistent support for the children that Georgette has taken in from the streets and is nurturing and mentoring into wonderful young adults.
